My husband and I moved to the valley four years ago when we bought our dental practice so we could fulfill our dream of working together. Since then, we have bought a home and have continued to explore all the valley has to offer. Finding the co-op was a great experience as we both enjoy cooking. When not working or cooking, I enjoy hiking and reading as much as I can.

Why would you like to serve on the board of Friendly City Food Co-op? Have you ever served on a board before, and if so, which one(s)?

The mission of the co-op to make available local produce and goods by supporting local farms and businesses is a mission I would like to support. Having a system where the community is supported by the grocery store and the grocery store is supported by the community is amazing! Serving on the board is an opportunity to serve the community. I have served on the Friendly City Co-op board for a one year term.

What particular skills, knowledge, and/or life experience do you bring to Friendly City Food Co-op that enables you to support and advance its mission?

With running a small business, I have learned a variety of skills that make me capable to evaluate the various reports that need to be reviewed on a monthly, quarterly, and yearly basis.

What experience do you have with Friendly City Food Co-op, Co-ops, and small businesses? As previously mentioned, I am a local small business owner myself. My experience with the Friendly City Co-op has been as both a patron and as a one year board member.

Friendly City ignites my passion for...seasonal recipes. I love perusing the local produce and goods and creating dinner plans to fit what's in season!

The item I can't live without at Friendly City is.... so many but my true favorites are the tuna salad and the hot bar!
